P&S Student Life:
A Vibrant Program to Engage our Students

P&S prides itself on our vibrant student life—from club activities and student-run clinics to global health programs and scholarly projects. Essential to our students’ experience and education is the Roy and Diana Vagelos Education Center, which opened in August 2016 and now provides our medical and graduate students with state-of-the-art learning resources. It also represents the cornerstone of our Campus Revitalization plan, which includes a vision to renovate Bard Hall, as we build tomorrow’s campus to continue leading tomorrow’s medicine.

We are grateful for your support in celebration of our 250th anniversary, as we work to keep student life strong at P&S for the next 250 years.
