REMARKS

Lee Goldman, MD
Harold and Margaret Hatch Professor
Dean of the Faculties of Health Sciences and Medicine
Chief Executive, Columbia University Medical Center
Congratulations to our P&S Faculty who have been promoted and honored in academic year 2016-2017!

The P&S Vision, “To be indisputably in the top five schools of medicine and arguably the best”, depends on a faculty that is energetic and committed in the pursuit of excellence in research, education, and patient care. The faculty whose promotions and honors we celebrate today have been recognized by their colleagues, both within and outside of CUMC, for outstanding accomplishments that are emblematic of their academic distinction.

Academic promotion is an internal and external honor in recognition of the accomplishments of our faculty in one or more of our core missions:

• Transformative research that spans the continuum from basic laboratory studies to clinical and population based studies

• Provision of extraordinary care options for our patients

• Creation and delivery of innovative education to the next generation of physicians and scientists

We also celebrate well-deserved external honors earned by our faculty over the past academic year. Our celebration today recognizes accomplishments of our faculty, but is also an expression of how P&S faculty continue to inspire students, trainees, colleagues, and the public as we shape our legacy of excellence.
